

## ***THE POWER OF YOUR GIFT***

Your gift can provide funds over a specific time period (called a current fund) or it can be endowed so that it produces awards in perpetuity.

The minimum gift required to establish a current fund is \$5,000 and the minimum for an endowed fund is \$35,000. Both types of gifts may be paid out over a period of up to five years.

As public funding for higher education has dropped, the need for private support has become paramount. Wichita State would not be the extraordinary place it is today without generous support from donors like you.
